Sing

Laurie Berkner is always a fun listen. In Whaddaya Think of That? Laurie's What Falls in the Fall? gets us ready for the season.

Play

There are so many activities to do in the fall. Make some leaf art with tissue paper or even leaves found on the ground. Make a sensory rice bin and color the rice orange with dye, throw in some acorns, leaves, an apple, cookie cutters, scoops and spoons and let your child go at it!

Talk

Talk together about what happens in the fall!

- What do you notice about the leaves on the trees?
- What other changes do we notice outside?
- What are some outdoor activities we can do in the fall?

Write

Tracing skills are always helpful in writing. It teaches a child how to hold a writing utensil. Use a crayon or pencil and let your child trace the leaves found on the ground. You can also have your child draw a face on a pumpkin!
