From the Director

Every year when I write the fall *Browsing* column, I reminisce about back to school supply shopping. I had a Trapper Keeper that had adorable puppies in which I could keep all my 5th grade assignments in impeccable order. Also, my mother was persuaded to buy me some fun glittery Lisa Frank stickers and pencils. I still occasionally pick up a new glittery pen when I take my

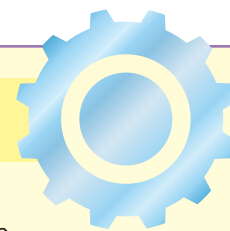

own kids back to school shopping. The new school supplies motivated me to get ready for the upcoming school year. Best wishes to students of all ages for an engaging and inspiring school year.

Fall seemed like the perfect time to survey our community about library services. It has been a few years since DPL underwent a strategic planning process and I'm excited to announce that we are commencing the process this fall! On the back cover, there is a QR code that you can scan to take a quick survey to provide us feedback on what we can do better to serve you. You can also access the survey at <https://deerfieldlibrary.org/survey>.

Your responses will help shape our goals and budgets for years to come. DPL's mission is to serve our community in the best possible way. After all, we are a public library and exist to serve our public.

Amy Falasz-Peterson, Library Director

The MakerSpace: Your Imagination Station

In November 2019, we opened the doors to the brand new DPL MakerSpace. We were visited by many curious and creative patrons before we had to shut the doors just five months later, due to the pandemic.

Soon after the closure, we were able to arrange for patrons to submit projects that staff would process. When complete, the projects could be picked up curbside. Eventually, we could have one person in at a time to use the equipment. Now, we are happy to report, our doors are fully open for appointments and walk-ins.

And, oh, the projects you all have been dreaming up!

At the point that **Jackie Guagliardo** was dreaming up party plans for her soon-to-be dentist daughter's graduation, the previous issue of this newsletter landed in her mailbox. Jackie read about the cornucopia of creative options, and quickly made an appointment to come in and learn more about the MakerSpace. "The staff was wonderful about working through the many ideas with me," said Jackie. "Once I learned about all the tools available, I came up with a few more ideas. The staff patiently taught me how to use the equipment, and it was loads of fun."

Jackie is pictured with a few of the party pieces. The **vinyl cutter** was used to make the framed table signs, as well as the white vinyl teeth on the placeholders. The laser engraver was utilized to engrave "daughter info" in the wooden bases for picture frames. The **laser engraver** was also used to engrave special messages and illustrations on water bottles used at each table.

Just ahead of Valentine's Day, **Ron Swidler** created a

silhouette of his family on his computer (dogs included, of course) as a gift to his wife.

Following that success, Ron returned to the MakerSpace with designs of his three brothers' families to create a collection of silhouettes for his mom's 80th birthday. The **vinyl cutter** and the MakerSpace were just the tools and team he needed. The silhouettes were cut from matte black vinyl, then mounted and framed as beautiful keepsake birthday gifts.

For an upcoming 60th birthday party, a patron used the **embroidery machine** to create special napkins, the **laser engraver** for customized shot glasses, and the **button machine** for...buttons!

What about personalized baby shower gifts, you ask? Bring in some onesies and we'll show you how to use the **vinyl cutter** to create iron-on vinyl transfers. Yep, we've got the **iron**, too.

A huge birthday (or graduation) banner always adds a spark to a celebration. That's just what our **large format printer** is here for, and so much more!

Dust off those boxes full of slides, photos, cassettes, and VHS tapes. Our popular **Digital Media Lab** has all you need to convert that old technology into accessible digital files.

With the reopening, we expanded the MakerSpace creative team, so there is always someone here to train you on the tools that will make your ideas a reality. In addition, we have a large

DPL Community Survey: We Want to Hear From You!

The Deerfield Public Library is planning for the future and we need your feedback. We are in the process of developing a strategic plan to help guide the direction of the library over the next few years. This survey will provide valuable input to the strategic plan, and takes 3-5 minutes to complete.

The survey can be completed online, and can be accessed by the **QR code** provided here or on our website at <https://deerfieldlibrary.org/survey>. Print copies are available at the front desk, and completed surveys can be returned at the desk. *Survey responses are anonymous.*

Please help us learn more about how our community uses and views the library by sharing your ideas and opinions. We greatly appreciate your time and feedback.
